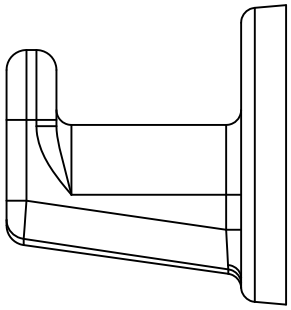
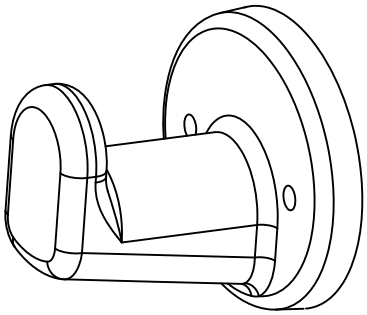
Safety Bag Hooks



Lawdex has designed a new, safe and robust bag hook that comes with a Lifetime Warranty. Its sleek, smooth curved design has ticked all boxes for being the safest bag hook on the market.



We have thought of every angle to keep the client happy by giving the option of buying the hook individually and fixing to existing old bag rails to save costs or can be purchased ready to go on its own new aluminium rail, ready to fix to any wall.

The aluminium rail is Clear Anodised, hard wearing and maintenance free, whilst still providing a modern architectual look.
